(a)
SC set (71)
test set (71)
benzene (10)
number of rotations
within-basis range w
(b)
E pair, 3- or 6-fold axis (113)
T triple (30)
E pair, 4-fold axis (5) and
Π pair (4): $w = 0$ in every basis
number of rotations
within-basis range w
(c)
SC set (71)
test set (71)
benzene (10)
number of rotations
member mean − $\bar{s}$
